Optional

Full HD Video

This Police camera, IV-PBC-02, is a body worn high-definition video recorder for law enforcement supporting true HD 1080p Recording. It can record over 8-hour videos on a single charge. With the second battery provided with the unit, a total of 16 hours of battery power is achieved. With one button pressing (Recording Button), IV-PBC-02 will be able to start recording even from the Off Mode or Shutdown State. Plus, user ID and date/time watermark are available.

16 Megapixel Camera

Arriving at the scene of an accident or crime, user can quickly snap photos even while the unit is recording 1080P video in both night vision and full color mode. It features a 16 megapixel camera with burst mode for 3 or 5 photos.

Night Vision Recording

It features infrared LEDs, laser light, and fill light. The switch to activate the IR LEDs is located at the side of the camera, easily and fast response. Take photos in night vision mode is available

Audio/Voice Recorder

Record victim scene, witness statements or interrogations as a voice recorder.

Instant Playback

2.0 inch TFT LCD display. Pause, rewind, and forward the video at a maximum of 64x speed.
